Tassels

To make the most out of your yarn I recommend cutting these to size before finishing the scarf to ensure you have enough left!

Cut 24 strands of yarn, length 35cm each

Hold three strands together and fold in half

Push (with fingers or a crochet hook) the fold through a small gap at the end of the scarf to form a loop. Thread the ends of the strands through the loop and pull to tighten.

Repeat until there are 8 evenly spaced tassels at each end.
